2.85m x 3.65m (9'4" X 12')	2.5m down to 1.88m	€2,649	48no
2.85m x 4.45m (9'4" X 14'7")	2.5m down to 1.88m	€2,899	60no
2.85m x 5.25m (9'4" X 17'2")	2.5m down to 1.88m	€3,249	72no

Prices above are for standard greenhouses which include lockable sliding doors, a heavy duty steel base (ready to accept 400 x 400 paving slabs) and a sliding hatch vent. Door opening height - 176cm. Door opening width - 72cm.

Installation Access: All greenhouses require a side entrance with no overhead restrictions

Heavy Duty Steel Base Frame

The customer needs to provide a level site and the quantity of paving slabs as specified on the price list.

A level site is defined as a site with no more than a 50mm fall for every 3m (2" fall for every 10ft)

Important Please Note:

The heavy duty steel base supplied and fitted with the greenhouse is specifically made to accept 400mm x 400mm paving slabs. Any size slabs other than this will not fit. Slabs are not included and must be supplied by the customer.

Paving slabs add weight and stability to the greenhouse. Failure by the customer to install these slabs in the greenhouse base frame may result in the greenhouse moving in windy conditions.

Deposit is required at time of order. This is non-refundable. All prices include delivery, installation and vat @ 13.5%

Multigrow

Optional Extras

Small Planter

Medium Planter

Large Planter

Potting Bench

8' Growing Shelving Unit

Small Planter	Constructed fully from galvanized steel. Measuring 390 x 390mm each planter is supplied with a removable base. If preferred the base can be taken out allowing the user to grow directly through the base frame into the soil below. This planter is made to replace 1no. floor paving slab. Total measurements are 390mm L x 200mm H x 390mm D	€49
Medium Planter	Constructed fully from galvanized steel. Measuring 390 x 790mm each planter is supplied with a removable base. If preferred the base can be taken out allowing the user to grow directly through the base frame into the soil below. This planter is made to replace 2no. floor paving slabs. Total measurements are 790mm L x 200mm H x 390mm D	€69
Large Planter	Constructed fully from galvanized steel. Measuring 390 x 1190mm each planter is supplied with a removable base. If preferred the base can be taken out allowing the user to grow directly through the base frame into the soil below. This planter is made to replace 3no. floor paving slabs. Total measurements are 1190mm L x 200mm H x 390mm D	€89
8' Growing Shelving Unit	8' Growing Shelving Unit is a freestanding unit which can be made shorter to fit inside smaller greenhouse sizes. Constructed completely from galvanized steel this heavy duty shelving unit is ideally suited to the greenhouse environment. Standard shelf measurements are 2400mm L x 1300mm H x 300mm D	€179
Potting Bench	Potting Bench is a freestanding unit which can be positioned in various locations internally. Constructed completely from galvanized steel this heavy duty potting bench is ideally suited to the greenhouse environment. Standard bench measurements are 1000mm L x 985mm H x 500mm D	€179
