

The logo for Adman Steel Sheds is a white hexagonal shape with a black border. Inside the hexagon, the word "ADMAN" is written in a large, bold, red sans-serif font. Below "ADMAN", the words "STEEL SHEDS" are written in a smaller, black, sans-serif font. The logo is positioned in the upper right quadrant of the image, set against a background of two parallel red diagonal stripes.

THERMASTORE

GARDEN SHEDS AND GARAGES

NATURAL LIGHT

UV protected polycarbonate roof lights. It is also double skin insulated.

INSULATED SURFACES

Walls and roof are insulated using 40mm insulated sandwich panel throughout.

WALL PANNELLING

Interior is finished in a white, smooth, easy to clean maintenance free metal surface. Exterior is PVC coated in a choice of colours.

EASILY HEATED

Suitable as a workshop or hobby space as heat is retained.

The THERMASTORE is a step up from the DURASTORE range, this selection is constructed with fully insulated walls and roof panels. While retaining the same robust construction as our DURASTORE models, these easily heated units have the added advantage of retaining heat. This insulation combined with heating, allows for a dryer and more comfortable environment for use as workshops and hobby spaces along with being an ideal storage area for your more valuable goods such as cars, vintage vehicles, electrical items and household furniture. **A rebated concrete base is required for our THERMASTORE ranges.**

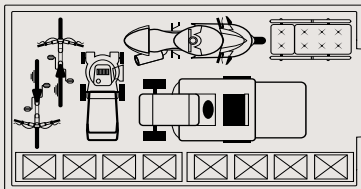

BETTER BUILT BY ADMAN

- INSULATED WALLS & ROOF**
 Constructed using 40mm insulated sandwich panel throughout.

IT'S TIME TO GROW

The Multigrow Greenhouse is the newest addition to the Adman range of products. Available in a choice of sizes and colours with a host of unique options, all of which can be specified to suit your garden and growing requirements. Produced from the highest quality materials the Multigrow Greenhouse displays superb strength and build quality and is ideally suited for Ireland's varied and harsh weather conditions.

Incorporating a unique heavy duty steel base frame, ready to accept paving slabs to act as an internal floor, each greenhouse can be fitted on almost any level surface, eliminating the requirement for major site preparations such as concreting. Equipped as standard with double sliding doors and a large sliding vent the Multigrow Greenhouse is the perfect partner for growing enthusiasts of all levels.

GOOD VENTILATION

Roof corrugations allow for consistent ventilation at all times helping to avoid excessive temperatures.

SLIDING VENT

Positioned in the back gable, a large sliding vent is included as standard to supply extra ventilation when required.

MAXIMUM STRENGTH

High impact resistant external polycarbonate sheeting.

DOUBLE SLIDING DOORS

Opening to the left and right, doors can be left partially or fully open depending on the users needs.

BASE FRAME INCLUDED

Supplied and fitted with a heavy duty steel base frame, ready to accept paving slabs.

Please note: slabs are not included and must be supplied by customer.

BETTER BUILT BY ADMAN

- **SUPERIOR FINISHES**
Safe edge folds on all exterior flashings: external screws finished with protective colour caps.
- **MAINTENANCE FREE EXTERIOR**
UV protected and high impact resistant, the external polycarbonate sheeting delivers strength and durability.
- **BASE FRAME**
All greenhouses include a heavy duty steel base frame. Can be installed on any level surface without the need for any major groundworks.
- **SMART GROWING OPTIONS**
Such as potting benches, shelving units and maintenance free composite planters.
- **TOP QUALITY MATERIALS**
Galvanised steel framework throughout.

AVAILABLE SIZES

Widths: 1.94m, 2.44m, 2.85m.

Lengths: 1.85m, 2.65m, 3.65m, 4.45m, 5.25m

BASE INCLUDED

All greenhouses as standard include a heavy duty steel base frame. Can be installed on any level surface without the need for any major groundworks.

ASSEMBLY INCLUDED

All prices include delivery and professional assembly.

CUSTOMER REQUIREMENTS

Prior to installation the customer must provide:

1. Level site with the specified number of paving slabs.
2. Access to site.

HOW IT WORKS

A level garden area is most suitable. For unlevel garden areas, please allow some extra paving slabs for leveling the base frame.

The Adman installation team will level the base frame and assemble the Multigrow Greenhouse.

The Adman installation team will be happy to position the paving slabs inside your Multigrow Greenhouse.

The required number of paving slabs must be supplied by the customer.

Please ensure that the slabs supplied measure 400 x 400 x 40mm.
