2.85m x 5.25m (9'4" X 17'2")	2.5m down to 1.88m	€2,999	72no

Prices above are for standard greenhouses which include sliding doors, a heavy duty steel base (ready to accept 400 x 400 paving slabs) and a sliding hatch vent. Door opening height - 176cm. Door opening width - 72cm.

Installation Access: All greenhouses require a side entrance with no overhead restrictions to 2.5m

Heavy Duty Steel Base Frame

The customer needs to provide a level site and the quantity of paving slabs as specified on the price list.

A level site is defined as a site with no more than a 50mm fall for every 3m (2" fall for every 10ft)

Important Please Note:

The heavy duty steel base supplied and fitted with the greenhouse is specifically made to accept 400mm x 400mm paving slabs. Any size slabs other than this will not fit. Slabs are not included and must be supplied by the customer.

Paving slabs add weight and stability to the greenhouse. Failure by the customer to install these slabs in the greenhouse base frame may result in the greenhouse moving in windy conditions.

All prices include delivery, installation and vat @ 13.5%
